The IEEE Long Island Section Computer Society  
present a seminar titled:

## *Web Performance Matters*

**Tuesday, May 3, 2011**

**WHO SHOULD ATTEND?** Persons who are interested in learning more about the web performance: web developers, web operations engineers, web site owners.

**HOW TO REGISTER:** If you wish to attend, please register via internet in the calendar page of [www.ieee.li](http://www.ieee.li).

**Speaker:** Sergey Chernyshev – Turner Broadcasting

### **Abstract:**

Performance is one of the most important characteristics of modern applications and especially web application where user's attention is fragmented and competition is just one click away. Sergey will show telling statistics behind web performance and why it is very important to think beyond scalability and load testing. He will describe most common causes of web application slowness and propose some technical and organizational steps for small and large web application to take to get fast web experience.

### **Speaker Bio:**

Sergey Chernyshev (@sergeyche) is a software developer, web performance enthusiast, open source hacker and web addict. He has over 15 years of web development and operations experience and works at Turner Broadcasting - truTV as Director of Web Systems and Applications. Sergey oversees web development and operations for company's web properties.

Sergey's research works is on web performance measurement and optimization and semantic web. His open source work includes:

ShowSlow (<http://www.showslow.com>) is a tool for aggregating and visualizing web site performance information.

Sergey also organizes New York Web Performance Meetup Group, community of web performance experts. He speaks at O'Reilly Velocity conference and often invited to talk on performance-related topics at various local New York events.

### **Seminar Coordinators:**

Metodi Filipov, Computer Society Chair of the IEEE Long Island Section.

### **Location and Time:**

The seminar will be presented from 6:30PM to 8:00 PM Tuesday, May 3, 2011 at Salten Center, SC1 - NYIT-Old Westbury Campus. Doors open at 6:00PM for refreshments. The seminar is free and open to all. If you wish to attend, please register via internet in the calendar page of [www.ieee.li](http://www.ieee.li). You can contact the coordinator Metodi Filipov by email at [mfilipov@ieee.org](mailto:mfilipov@ieee.org).
